II. Claim Listing

Claim 1 (Amended Once) A device for establishing and maintaining a static magnetic null field in a substantially fixed relationship to a quantity of cellular material comprising:

A holder having a first arm and second arm;

Means for adjusting the ~~position of~~ the relative distance between the first and second arm;

A Magnet;

Attachment means for affixing said magnet to each of the arms of the holder in a manner so that a magnetic null field is formed in an area between the magnets.

Claim 2 (Amended Once) The device of Claim 1 wherein each magnet affixed to each arm has a strength of between ~~about~~ substantially 300 Gauss and ~~about~~ substantially 1,000 Gauss.

Claim 3 (Amended Once) The device of Claim 1 wherein each magnet has a magnet
